WORK EXPERIENCE

Red Hat

February 2023 - Present

I have been part of the team that develops various components of the internal secure software supply chain pipeline. Specifically, I have been working on an open-source project that enables building container images without access to the internet and makes the build process safe, reproducible, and auditable.

Skills

Python | Go | Linux | Bash | Docker | OpenShift | Tekton | Scrum | Kanban | Jira

Faculty of Informatics, Masaryk University

February 2022 - January 2024

During my studies, I helped with organizing several courses at the faculty. I provided code reviews for younger students and graded their assignments based on the code quality. Additionally, I prepared materials and conducted a couple of seminars. This experience improved my communication and presentation skills.

Nokia

July 2022 - June 2023

I maintained automated testing frameworks for a network infrastructure project, gaining practical experience in network security protocols, and software-defined networking.

Skills

SDN | SD-WAN | Cryptography | Security | Linux

EDUCATION

Certificates

Red Hat Certified Specialist in Containers

Red Hat Certified Engineer

Red Hat Certified System Administrator

Deutsches Sprachdiplom (DSD)

University

Faculty of Informatics, Masaryk University *September 2020 - June 2024*

Skills

Haskell | C/C++ | Rust | Python | Java | C# | SQL | TypeScript | React | Perl | Assembly | Docker

Please note that a university should provide students with an education and a solid foundation for their future. It is **NOT** supposed to teach the latest and most popular technologies. The skills above are just a few examples of what I encountered at the university. They should be replaced with algorithms, data structures, OOP, and math. These form the comprehensive knowledge of computer science and software engineering. I am confident that I can learn **ANY** programming language or technology. I believe the ability to write clean code and solve problems is **NOT** bound to a specific programming language.

ACHIEVEMENTS

- 4x Slovak U19 Pool Championships winner
- 3x European Pool Championships participant
