I developed an iOS app that allows amateur billiard players to track their matches in the straight pool discipline.

WORK EXPERIENCE

Red Hat

Feb 2023 - Present ▪ 2 yrs 6 mos - Brno, Czechia

I have been part of the team that develops various components of the internal CI/CD system, with a focus on software supply chain security. Specifically, I have been working on an open-source project that enables building container images without access to the internet, and makes the build process secure, reproducible, and auditable by providing an accurate source Software Bill of Materials (SBOM).
